**Meeting:** 2nd and 4th Tuesday of Every Month

**Time:** 6:30PM to 8:30 PM

**SWCTC Email:** sandcloud@embarqmil.com

<http://southwalton.apcug.org>

**The South Walton Computer and Technology Club (SWCTC) active since 1995.** Our beginners and advanced computer users find the club computer classes are a great way to learn new computer skills and get answers to software and hardware questions. This is the place where you can expect to have fun, meet friends, get the latest technology and be entertained while you are learning.

The meetings are set with three training stations with three projectors and three instructors. You can pick and choose from, a variety of subjects. Our classes have something for everyone from beginner to advanced users. You can request a particular subject for training. The four hours we spend together every month is your opportunity to build confidence and learn. All classes are a solid two hours of computer training. You will fill a notebook full of tips on "How To" from every session.

If you are a local or snowbird you are invited to join a class. Membership is only \$10.00. All of us from SWCTC are volunteers. We gladly give our time and share our computer knowledge in the hope it will take some mystery out of learning computers. Call or just show up at a class. All of us from SWCTC welcome you.

The SWCTC is a member of APCUG an International Association of Technology & Computer User Groups (<http://www.apcug2.org/>). As a member of SWCTC you are eligible to participate in all of the different training programs and yearly convention. Visit the web sites for more information. Information of major APCUG and NWFACUG events are emailed to all members of SWCTC.

Carl Lofstrom, President SWCTC, sandcloud@embarqmail.com 850-586-0603

Larry Wons, Vice President SWCTC, lawr@cox.net
